On behalf of the Cooperating PRP Group with respect to the above-captioned NPL Site, I am writing to ask that EPA issue Administrative Orders pursuant to § 106 of CERCLA requiring the Potentially Responsible Parties listed below to participate in the Remedial Investigation, Feasibility Study and remedial activities relative to this NPL Site.

Previously, we identified these PRPs to EPA based on evidence indicating that they had disposed of or transported hazardous substances to the 216 Paterson Plank Road NPL Site ("Site"). EPA issued § 104(e) information requests to these PRPs. In their responses to the § 104(e) information requests, these PRPs indicated that they had no knowledge or information as to whether or not they had any connection with the Site. However, documentary evidence that the Cooperating PRP Group had provided earlier to EPA indicates that, for each of them, a connection apparently existed.

That evidence is as follows:

\*F:\F\$3\02021001\CORRESP\SEHCRSTN.825 7/20/95 15:49

PRP	EXHIBIT	DOCUMENTARY EVIDENCE		
Aeroclo Metal Products Corp.	1	Deposition of Herbert Case, Nov. 5, 1990, pages 239 - 242: Mr. Case testified that Aeroclo was a customer of Scientific Chemical Processing and shipped solvent or other material to the Site; he testified that Aeroclo generated solvent waste streams and that such wastes were treated for recovery or waste fuel blending		
	2	"Suppliers of Waste Chemicals to Scientific Chemical Processing During 1978-80," page 2: Aeroclo is shown as a customer, shipping waste in drums to Carlstadt for recovery, disposal and fuel blending		
	3	Sigmond Exhibit 94, indicating Aeroclo as shipping waste to the Carlstadt Site		
	4	1978 Invoice from Scientific Chemical Processing to Aeroclo		
Airtron Inc.	5	North Jersey Refining Co. ledger sheets, January 1962, indicating payments by Airtron to NJRC		
	6	Deposition of Robert Zindt, October 30, 1990, pages 135: Mr. Zindt testified that Airtron was a customer of North Jersey Refining Co.		
Becton Dickinson & Co.	7	Deposition of Hans Schafft, Dec. 12, 1990, pages 274-75, stating that Becton Dickinson shipped waste acetone to the Site		
	8	Deposition of Benjamin Sel, June 14, 1991, p. 176, indicating Becton Dickinson as a customer		

PRP	EXHIBIT	DOCUMENTARY EVIDENCE
Becton Dickinson (cont.)	9	Industrial Waste Survey, Feb. 11, 1977, by Becton Dickinson, indicating that waste was shipped to SCP for use in fuel blending, incineration
	10	Deposition of Mack Barnes, Nov. 30, 1990, pages 662-63, stating that Becton Dickinson was a customer of SCTC, shipping acetone in drums
Carter Spray Finishing Corp.	11	Ledger sheets of North Jersey Refining Co. Indicating various payments received from Carter Spray Finishing
EKFA Plastics Inc.	12	Suppliers of Waste Chemicals to Scientific Chemical Processing during 1978-80," indicating EKFA Plastics as a customer of SCP
·	13	Invoices # 2-63 and 2-64 from SCP to EKFA Plastics dated 3/5/80, indicating charges for waste processing (billed from Wilson Avenue office)
Mainco, Inc.	14	Various manifests indicating Mainco hauled waste oils and mixed solvents for Newco Chemical to the Site

PRP	EXHIBIT	DOCUMENTARY EVIDENCE
Pan Chemical Corp.	15	Special waste manifests indicating shipments of paint and pigment residues and solvents, totaling 51,700 gallons, by Pan Chemical to SCP
	16	Various invoices from SCP to Pan Chemical in 1975 for recovered solvents, still bottoms, heavy material
	17	US EPA waste-in list printout showing 53,100 gallons of waste/spent solvents and paint sludge shipped by Pan Chemical to SCP
	18	North Jersey Refining Corp. Ledger sheets reflecting cash receipts from Pan Chemical from 1961 - 1963
	19	Deposition of Robert Zindt, Oct. 30, 1990, page 181, indicating Pan Chemical as a former customer
	20	Deposition of John Vink, June 5, 1991, page 98, indicating Pan Chemical shipped lacquer thinners to the Site
	21	Deposition of Mack Barnes, Nov. 16, 1990, pages 427-428, indicating Pan Chemical shipped about 60 drums a month of lacquer thinners, MEK, toluene, acetone to the Site
	22	Invoices from North Jersey Refining Co. to Pan Chemical, Oct. & Nov., 1965

PRP	EXHIBIT	DOCUMENTARY EVIDENCE
Sapolin Paints, Inc.	23	Letter of Joseph Sel of NJRC to Rutherford National Bank, dated Sept.16, 1946 stating that Sapolin was a customer of NJRC
	24	NJRC ledger sheet indicating receipt of payments from Sapolin Paints
	25	Deposition of Robert Zindt, Oct. 30, 1990, at pages 116-17, stating Sapolin Paints was a customer of NJRC
	26	Deposition of John Vink, dated June 5, 1991, pages 99, 160-162, stating Sapolin Paints was a customer of the Site
	27	Deposition of Benjamin Sel, June 14, 1991, pages 161, 176, 252-54, stating Sapolin Paints shipped mineral spirits to the Site
Singer Sewing Machine	28	Deposition of Charles Richmond, Nov. 14, 1990, page 34, stating that Singer Sewing Machine shipped trichloroethylene to North Jersey Refining
Solar Chemical Co.	29	Ledger sheets of North Jersey Refining Co. from 1962 and 1963 evidencing cash receipts from Solar Chemical Co.
Super Pac Inc.	30	Jonas 1978 Collector/Hauler Report indicating transportation of 3000 gallons of liquid waste in 1978 from Southampton, PA, along with Marvin Jonas's handwritten note indicating March 1976, 3000 gallons solvent from Superpac to SCP (Superpac was Jonas's only customer from Southampton PA)

PRP	EXHIBIT	DOCUMENTARY EVIDENCE
Washington Wood Products	31	Ledger sheets of NJRC dated 1962 indicating cash payments by Washington Wood Products to NJRC

Based on the above-referenced documentary evidence, each one of these entities is indicated as having a connection to the 216 Paterson Plank Road NPL site by having disposed of or transported hazardous substances to the Site and/or having paid for such services. Consequently, each is a Potentially Responsible Party and is liable for the costs of investigation and remediation at the Site. Therefore, on behalf of the Cooperating PRP Group we request that EPA issue to each of these entities a § 106 administrative order requiring them to participate in the funding of the Remedial investigation, Feasibility Study and remediation activities relative to the Carlstadt Site.

Thank you for your assistance in this matter. Should you have questions or require further information in connection with this request, please call me at (609) 895-6215.

Sincerely,

Susan E. Hoffman

Susan E. Flogmon

Q Did you ever submit any letters to Dominick Presto for approval or comments before you sent them out to customers?

A I don't recall sending a normal quotation letter to Dominick Presto. I recall sending any documents, requests for documents, contract forms, purchase order forms, any legal type of document to him for his review and comment.

MR. GENTILE: Let's go off the record.

(Discussion off the record.)

(Luncheon recess.)

EXAMINATION BY MR. COFFEY:

17

21

22.

23

Q Mr. Case, my name is Gregory Coffey from the law firm of Schenk, Price, Smith & King in Morristown, New Jersey. I represent Inmar Associates and Marvin Mahan in connection with this lawsuit.

I think the instructions were provided to you by Mr. Gentile before the commencement of your deposition, but I'll just remind you that you are still under oath.

Let's have this document marked.

(At which time Case Exhibit 91,

Suppliers of Waste Chemicals to Scientific Chemical

Processing, Inc. During 1978, '79 and '80, was received and marked for Identification.)

Q If you want to take a moment to look at that, Mr. Case.

Do you recognize what's been marked Exhibit 91?

A Without having read through it all, I do have a vague recollection of this document, yes.

Q Is it your recollection that you've seen this document before?

A Yes.

10

11

12

13

14

15

16

17

18

19

20

21

22

23

74

Q Do you recall the reason for preparation of this document marked as Exhibit 91?

A I recall it being requested, along with Mack Barnes, by Leif Sigmond in preparation for the sale of a customer list or business relationship with Solvents Recovery Service where he was trying to assess the level and type of business of customers of the company at that time.

MR. COFFEY: For the record, Exhibit 91 has been referenced at the document depository in this case as Customer List C and is provided without Bates numbers, but is provided in a file containing the Customer Lists A, B and C located at the document

depository.

Q On the second page of Exhibit 91, I call your attention to the first entity named on that page, Aeroclo Corporation. Do you recall Aeroclo Corporation as a customer of Scientific Chemical Processing Company?

A I do.

Q Do you recall the type of waste stream that they provided to Scientific Chemical Processing Company for processing?

A Not specifically, other than it would have been some type of solvent material or type of material.

Q Do you recall whether the material that Aeroclo generated was generated to the Carlstadt site at any time?

A I can't recall specifically. If you would like, I can try and -- I see that there's an indication of what we indicated at that time where it went, whether it be Carlstadt, Newark, so I would have to rely on that representation there, not my memory.

Q Under the column on the second page on Exhibit 91 where it's marked R. C. and under it you see a C next to Aeroclo, is it your understanding that

23

24

25

Case - by Coffey

that indicates that the waste was shipped to the Carlstadt location?

- A In accordance with the preparation of this document and the cover letter, it does, yes.
- Q Do you have a recollection that Aeroclo Corporation was a customer of SCP before 1976?
  - A I don't remember.
- Q Do you have a recollection that Aeroclo Corporation was a customer of Scientific Chemical Treatment Company?
- A I don't have that recollection either. I don't recall.
- Q Do you have a recollection as to the specific type of process employed for reclaiming or processing Aeroclo Corporation materials sent to the Carlstadt site?
- A I don't have a specific recollection for that customer, no.
- Q But you indicated that you recalled that they generated waste streams of solvent materials?
- A Yes. Beyond that, I don't recall. Of course, the document also refers to treatment codes under type and typical solvents were treated either for recovery or waste fuel blending.

Q This document in the column providing for the type indicates for Aeroclo Corporation recovery and waste fuel blending?

A Yes, it does. It also indicates, and it might clarify it, I'm just trying to recall myself going through this, it's been a long time, the R for recovery, W for waste disposal and F for fuel blending, it's my recollection that the distinction between recovery and waste disposal is that in R, the customer was charged for recovery, and W he was charged for waste disposal, but it doesn't indicate beyond that that it went into fuel blending.

ll

Q So from your examination of this document and your present recollection, is it fair to say that Aeroclo was a toll customer of SCP?

A I really don't recall. It could have been.

Q Do you have a recollection of Aeroclo Corporation being a large generator of waste materials to SCP Carlstadt?

A No. I recall them as being a small customer of the company.

Q Do you recall that their materials were typically shipped in drums, if you recall?

A Yes, yes.

Q Do you have a recollection of the next entity listed on Exhibit 91, Ahart Industries, as being a customer of SCP?

A Again, it's a vague recollection, which is reinforced by the document.

Q Do you recall the type of materials that Ahart Industries generated to the SCP Carlstadt site?

A This is a long time ago, it's a vague recollection that it was a printing type of operation, and it would have been solvents.

Q Would they be chlorinated solvents that they would provide?

- A My recollection would be no.
- Q Do you recall that Ahart Industries was a customer of SCP prior to the time that SCP opened its Newark operation?

A I don't recall any connection with Newark or not. These are general recollections, even looking at the old North Jersey based or SCTC based customers were very local, New York and Bergen County and Passaic County, and there were a number of small customers that were local to that Carlstadt site, so I don't recall the connection. It seems like a small

PECYCLED .....

\_

SUPPLIERS OF WASTE CHEMICALS TO SCIENTIFIC CHEMICAL PROCESSING, INC. DURING 1978, '79 AND '80.

The following list of customers and operational data was developed partly from information gathered in order to make continous service available to our customers by turning the information over to Solvents Recovery Service, Inc., Linden, N.J. after the closing of operations of Scientific Chemical Processing, Inc. in 1980. Part of the information has been obtained by discussions with Mack Barnes and Herbert Case a week ago to confirm some of the data.

The original records located at the U.S. Attorney's office at Newark, N.J. can be used to confirm and greatly expand on the data presented, since we had to fely to a large extent on memory.

The catagories on the enclosed list are as follows:

CUSTOMER The name of the persons appearing in paranthesis are those normally contacted for information and instructions

R.C. This indicates the location that received the waste. Under this heading:

C - Carlstadt N - Newark

C&N - Carlitadt and Newark

CONT indicates the type of containers:

D = Drums
Bulk

D&B - Drums and bulk

TYPE Indicates the type of materials and the processing

of them:

R - Recovery

W - Waste Disposal

r - Used in fuel blending program

VALUE The amount in \$ billed the customer ( when available)

for the services rendered during the period.

VOLUME The approximate volume ( when available) of materials

received from a customer during the period.

SUPPLIERS OF WASTE CHEMICALS TO SCIENTIFIC CHEMICAL PROCESSING, INC. DURING 1978, '79 AND '80.

1	Zindt - by Coffey
2	they are, though.
3	Q Do you recall that they were a customer
4	of North Jersey Refining?
5	A I remember the name, but I imagine they
6	were a customer of them because I don't remember doing
7	that for the company I'm working for.
8	Q Do you recall that Airtron, Inc. was a
9	customer of North Jersey Refining Company, if you
10	recall?
11	A Were they in Poughkeepsie? If they were
12	in Poughkeepsie, I can remember that they were a
13	customer. I remember the name, Airtron.
14	Q Do you recall that they sent waste
15	materials for reprocessing to the Carlstadt site?
16	A I couldn't tell youyes, they probably
17	did, but I couldn't tell you what kind of product.
18	But if you could tell me where they were located, I
19	couldif it's the place I'm thinking about, I can
20	tell you what it is.
21	Q What type of materials did Toscony,
22	Incorporated
23	A As I explained to you, that was methyl
24	ethyl ketone.
25	Q Where were they located?

2	there, then the generation point for the crude most
3	likely was IBM up in the Fishkill, New York area.
4	Q Malinkrodt?
5	A Malinkrodt, out of Jersey City, I don't
6	recall what we did with them.
7	Q Berkeley Chemical?
8	A Berkeley Chemical, I think we did some
9	basic refining for them, a little bit of refining for
10	them, because they had been a company friend for many,
11	many years, and they also had worked with the solvents
12	recovery company.
13	Q About what kind of quantities do you
14	recall having dealt with them?
15	A I would be an absolute liar if I told
16	you.
17	Q Becton Dickenson?
18	A Becton Dickenson, that particular
19	location in Lyndhurst, New Jersey, which was right off
20	of Route 17, we got some spent acetone from them that
21	they used for washing and sterilizing their needles
22	before they prepackaged them in surgical kits.
23	Q Was that a customer which you dealt with
24	directly?
25	A No. I think that was an established

Schafft - By Romanini

1

Schafft - By Romanini

customer when we bought North Jersey Refining. There wasn't that much volume that came out of Becton Dickenson.

Q Do you have any idea how much, approximately, sales there were on a monthly basis?

A Only the good Lord knows at this particular juncture.

O Kleer Kast?

They were up in--I could almost take you to the location, but I can't name the town they were in.

What the heck is the name of that town? They were right off the west side of the meadows, just above Newark.

## MR. COFFEY: Kearny?

A (Continuing) I guess it was part of Kearny, in that particular area. I know we sold them some recovered acetone. We might have even sold them some recovered acetone that came out of Becton Dickerson.

Q What about anything from them?

A I think they had their own still recovery operation, because they were doing some still recovery work, if I'm not mistaken, but I'm not sure of that.

but it will be an attempt only. In some cases, I'm almost sure about toll; in other cases, I cannot be sure.

Q Why don't you go through the list and identify those customers that you have a reasonable basis for believing that they were toll customers.

(The witness complies with the

request.)

(Off the record.)

BY MR. PAPASAVAS:

Mr. Sel, now, I would like you to tell us which customers you have a recollection of being toll customers. And you can identify those customers which may not be on the lists that I showed you, exhibits 402A and 403. If you have an independent recollection of other customers which are not on this list, then include them as those companies you're going to identify as being toll customers.

A All right. I'm going to restrict my comments to companies on the list--first of all, on the list that I have a fairly clear recollection of. It's not to say that others might not have been toll customers, but I would not want to state for certain. I note many on the list I know were customers, but I'm

1 Sel - by Papasavas 2 not sure of the status of the customer between the two 3 categories, so these are all toll customers, to my knowledge. 5 Randolph Products; Continental Can 6 Company; Aurora Plastics; Borden Chemical Company; 7 Chemex, Incorporated; Devoe & Reynolds; Interchemical 8 Corporation; Pan Chemical Company; Reynolds Metals; Sun Chemical Company; Atlantic Lacquer Manufacturing 10 Company; Beckton Dickinson, Incorporated; and I 11 believe I have the next one down, I have 12 Interchemical, but I believe I already mentioned them. 13 You can mention companies twice. 0 14 won't make any difference. 15 I already mentioned Interchemical. 16 Okay. 17 J. Landau & Company, Incorporated. 18 Other companies that I have a 19 recollection of that I don't see on the list are 20 Sapolin Paint Company, which I mentioned before; 21 American Can Company; and Toscony Fabrics. 22 MR. PAPASAVAS: Off the record. 23 (Off the record, followed by a 24 recess.) 25 BY MR. PAPASAVAS:

Ms. Beatrice S. Tylutki State of New Jersey Department of Environment Protection Solid Waste Administration Trenton, New Jersey 08625

Dear Ms. Tylutki:

Attached are the completed Industrial Waste Survey forms pertaining to the Becton, Dickinson and Company Rutherford Complex. As you know, completion was required by January 15, 1977, but via a phone call to Ms. O. Serkies on January 12, 1977, this was extended to February 15, 1977.

I hope this information will aid you in your needs, and if I can be of any further help to you do not hesitate to call me.

Sincerely,

W. D. Luty

Mgr. Safety & Industrial

Hygiene Services.

1	Barnes - By Coffey
2	A I don't know. I don't remember.
3	Q Do you recall the type of waste streams
4	that Norda generated to SCTC?
5	A No.
6	Q What about Schering Corporation?
7	A No.
8	Q Do you have a recollection that they were
9	a customer of SCTC?
10	A No.
11	Q Were they a customer of SCP?
12	A I don't recall them being a customer of
13	either one.
14	Q Was Becton-Dickinson a customer of SCTC or
15	SCP at Carlstadt?
16	A ; Yeah, one of them. I remember out of the
17	three, they were a customer at one time.
18	Q During what period?
19	A North Jersey, I think. I know it was
20	North Jersey.
21	Q Did they ship an acetone material to
22	Carlstadt during North Jersey Refining's operation?
23	A Yeah.
24	Q Do you recall the type of shipments,
25	whether in drums or in tank wagons that they would

#### Barnes - By Coffey

2 make?

- A In drums.
- Q Was that reclaimed and returned to Becton-Dickinson?
  - A No, just resold.
- Q Was Petite Marine Paint Company a customer of North Jersey Refining and SCTC at Carlstadt?
  - A I don't recall.
- Q In reviewing the pages JUS0012932 and 933, the index cards that indicate trichloroethylene, do you recognize that the customers contained on the six index cards on those two pages were generators of trichloroethylene waste streams to the Carlstadt site either by North Jersey Refining, SCTC or SCP?
  - A No.
  - O You can't determine that?
  - A No.
- Q Do you recognize these entities, some of these entities as customers of SCP, SCTC or North Jersey Refining?
  - A Some of them, yeah.
- Q Could you go down the list and tell me which entities on these pages that you recognize as customers of SCP, North Jersey Refining or SCTC at

SUPPLIERS OF WASTE CHEMICALS TO SCIENTIFIC CHEMICAL PROCESSING, INC. DURING 1978, '79 AND '80.

The following list of customers and operational data was developed partly from information gathered in order to make continuous service available to our customers by turning the information over to Solvents Recovery Service, Inc., Linden, N.J. after the closing of operations of Scientific Chemical Processing, Inc. in 1980. Part of the information has been obtained by discussions with Mack Barnes and Herbert Case a week ago to confirm some of the data.

The original records located at the U.S. Attorney's office at Newark, N.J. can be used to confirm and greatly expand on the data presented, since we had to rely to a large extent on memory.

The catagories on the enclosed list are as follows:

CUSTOMER The name of the persons appearing in paranthesis are those normally contacted for information and instructions

R.C. This indicates the location that received the waste. Under this heading:

C - Carlstadt

N - Newark

C&N - Carlstadt and Newark

CONT Indicates the type of containers:

D - Drums
B - Bulk

D&B - Drums and bulk

TYPE Indicates the type of materials and the processing

of them:

R - Recovery

. W - Waste Disposal

F - Used in fuel blending program

VALUE The amount in \$ billed the customer ( when available)

for the services rendered during the period.

VOLUME The approximate volume ( when available) of materials

received from a customer during the period.

## Zindt - By Gentile

A Well, I couldn't really tell you the volume, but I know one still we used to put 40 drums in there and in about a week, less than a week we would have that processed, so we would get maybe 2,000 gallons, maybe 3,000 gallons out of what we put in. I couldn't really tell you in figures.

Q In terms of gallons onto the site on a monthly basis when you first began working there in 1949, do you have an approximation?

A No, I couldn't == I wouldn't even want to guess on that.

Q Let me just show you this exhibit marked during Mr. Barnes' deposition, Exhibit 75, which I think you might have seen before. There is a gallonage figure at the bottom there of 475,000 gallons.

· A Yes.

1.3

Q Does that represent some approximation of what was processed at the site during any time period that you worked there?

A It could have been more than that. You only got a handful of customers here, you know.

Now, this is a monthly basis?

Q Well, tell me, what do you think that

## Zindt - By Gentile

would be, monthly or yearly?

A Oh, I have no idea, because half of the customers aren't on this list.

Q So there are many more customers than are listed on Exhibit 75?

A I don't know. Like he's got paints and chemical here, 30,000 gallons. I don't think they got that much. Now, this could--but, you know, and he got Randolph Products. They used to come in about once a month, or a little less than that.

But, like I said, Pan Chemical, we used to do their product. We picked up maybe 30, 40, 50 drums, we would bring it in, and then we would reprocess that, and then they would get also--they would buy product off of us that we had. So, I don't know where he gets these figures from, I have no idea.

Q So, on a yearly basis, you're unable to say whether--are you able to say whether on a yearly basis the amount of waste products that were brought onto the site was more or less than 500,000 gallons?

A I wouldn't even say. It could be more, it could be less, you know. Like I said, like Commercial Ink, we used to go there sometimes I think twice a week or. It would depend, I guess, how

### Zindt - By Gentile

business was.

- Q Do you remember testifying about the United Transformer Company and chlorinated solvents that were delivered to the site?
  - A Yes, I believe they handled that.
- Q Did you have any understanding how United Transformer Company generated those solvents?
  - A No, I don't.
- Q Do you know whether they were used in cleaning transformers or not?
- A I believe they were a New York outfit; is that right? They were from New York, I believe, and I don't think they were a big company. I think maybe one or two drums, you know, something like that, because I think that was the other driver handled that, I believe. I remember the name, but I'm pretty sure that they had chlorinated solvents.
- Q Were there any waste oils accepted by North Jersey Refining Company?
- A Other than the waste oils that came in through all your trichloroethylene and perchloroethylene, that was all considered waste oil, and Pierce Brothers, that was waste oil. So the oil from that product that came in, to the best of my

# Vink - By Thomas

- Q During the time that you worked there?
- A No.
- Q Have you ever heard of Devoe and Raynolds?
- A Yes.
- Q What were they?
- A They were a lacquer company.
- Q What material did they bring in?
- A Lacquer thinners.
- Q Have you ever heard of Elber Chemical

## Company?

- A Yes.
- Q What material did they bring into North Jersey Refining?
  - A Lacquers.
  - Q How about Pan Chemical Company?
  - A Yes.
  - Q What material did they bring in?
  - A Lacquer thinners.
  - Q Have you ever heard of A.C. Horn, H-O-R-N?
  - A No. I don't recall them.
  - Q How about Thiele-Engdahl.
  - A I don't recall them either.
  - Q Have you ever heard of United Lacquer

September 15th, 1946.

The Rutherford National Bank East Authorford N J Attn: Mr. Ball.

#### Centlamen:

- lo the purpose of this is to consolidate enlicing obliqueions of the company and provide endicinal worlder, capital.
- Lo lin present hor employees, officers and their saluntes are:

President Court Sel, 109 (notylew Avo. Leonia, No. company company 150.00 per menti until ad os of company reach (2500.00 per menti To ut le st turce company tive mulia at which time his companation is to be increased to v150.00 per menti.

Vice-res, whose and goneral meanger- Floyd M. Daib, SMD raterson wee., Carlatect, M.J. compensation 47:.00 per week until sales of company reach 45500.00 for at least three consecutive menths at which time salary will be increased to \$100.00 per week.

Secretary-Harriet L. Jacobs, 131 male constitution and present compensation although and performs all bodalish no present compensation although an apparent allocations are constituted in the consecutive months.

Sales manager & Field Brown and is v60.00 per hutherford, H.J. whomas sales out of which he assumes weak plus 4 per company then sales expense will be his own sales to company them sales reach v3500 per mossion of the compensation and selection consecutive months.

The indebtedness of the company to, Jeseph Del, Harriet L. Jacobs, Englowood Plumbing Supply Co. Inc., Eyack Plbg. Supply Borp, and Floyd M. Bair will be either converted to paid-in capital and suppless or supprelinated to this loan.

This company is engaged in the recovery of lacquer solvents, minoral spirits, carbon tetra chloride and other contains line its which are used in great quantities of the contains and the contai

by industry and which in many instances have been discardedibut because of the excellence of this company's work in restoring the liquids to their original condition they enjoy repeat business from such firms as: Devoe & Raynolds Inc.; United Lacquer Co.; Monros Emdors Corp.; Dapolin Co.; Western Electric; Bakelite Co.; American Can Co. and others.

We are now in a position to secure much additional business which can be handled with a nominal increase in our operating expanse by the installation of about \$\frac{1}{2}\$000.00 worth of equipment and storage facilities(tanks).

The present sales of the company are made up approximately as follows: \$1000.00 per month of lacquer solvents. By the addition to our equipment of a vacuum still, this business can be stoadily suggested to where by the end of twelve menths it will be at least double because many customers not now using our service, would if our yield on this product were more uniformich tests have proven to us it will be, if vacuum stilled.

\$1250.00 per month of mineral spirits. This will immediatel be trebled by installation of a still four times the capacity of our present one. We have the customers on this product but can take them on until our facilities are augmented.

In addition to this our business consists of 200 to 5500 a month in wiscellaneous items, carbon tot, Triads, cutting oils, e This business is slowing growing and our present equipment assi to this is adequate for at least a trebling of the business alo on these products.

There will be no additional cash necessary to carry on the operations and the only additional expense involved will be mor power, water and fuel.

to process 100,000 lbs. of dirt containing scarce wax into primaterial. Cur customer furnished us special equipment which we tied into our equipment. Several batches have been satisfactor; processed. Adding two men to our pay-roll during the first six months of this year, who spent most of their time hooking up the

equipment and learning the operation, accounts for the operat

The will now process this material during the next fever months and add at least \$1000.00 monthly to our sales without any additional expense.

we are negotiating a sale for the sludge of our mineral spirit apprention. This has cost us concy to cart to the City dump. If successful and we are wirtually contain of clapoulugit (question of trice) so will not be our contally gross and a from \$400.00 to 1200.00.

The company owns the land on which it's modest plant is situated. The property comprises it acres and is emplo for a future expansion. The texas are very moderate and in there i mortsage on the land or buildings the company is not faced a any exorbitant fixed charge for reat.

Should there be any additional information required, pocall on the writer or incinia.

Tours very brily,

North Jersey Refining Company.

# Zindt - by Coffey (Off the record.)

- Q Mr. Zindt, do you recall that United Lacquer Company was a customer of North Jersey Refining when you first became employed with them in 1949 or 1950?
  - A I believe they were.
- Q Do you recall a company called Monroe Sanders Corporation?
  - A Yes, I remember them.
  - Q And where were they located?
- A I was just going to ask you that. I remember the name. I couldn't tell you where they were located or what kind of product they had.
- Q Do you recall if they were a customer of North Jersey Refining Company?
  - A Yes, they were a customer.
- Q Do you recall that they sent materials to be reprocessed to the Carlstadt site?
  - A Yes.
- Q Do you recall what type of materials they sent to be reprocessed?
  - A No.
- Q Do you recall a company named Sapolin Paint Company?

## Zindt - by Coffey

- A Yes, sir.
- Q Where was Sapolin Paint Company located?
- A Offhand, I couldn't tell you.
- Q Do you recall making pickups and deliveries from Sapolin Paint Company for North Jersey Refining?
- A I remember the name, but if I could remember where they were, I could probably tell you where--
- Q Do you recall that they were a customer of North Jersey Refining Company?
  - A They were a customer, yes.
- Q Do you recall that Western Electric was a customer of North Jersey Refining when you first became employed there in 1949 or 1950?
  - A Yes. They were in Harrison.
- Q Did they continue to be a customer of North Jersey Refining Company throughout the time they operated the site?
- A No, I don't think so. I think--I don't recall, but I think they went out of business. I mean, I don't know whether they were still in business or whether they moved out of that building. I know they moved out of the building in Harrison there. I

## Vink - By Thomas

- A Yes.
- Q Did they bring material into North Jersey Refining Company?
  - A Yes.
  - Q What type of material?
  - A Lacquer thinners.
  - Q How about Monroe Sanders Corporation?
  - A Yes.
  - Q What material did they bring in?
  - A They also brought lacquer thinners.
  - Q Sapolin Paint Company?
  - A Yes.
  - Q What material did they bring in?
  - A They brought in paint, mineral spirits.
- Q Do you recall American Can Company as a customer of North Jersey Refining Company?
  - A I don't recall them coming to us.
- Q Do you recall carbon tetrachloride being processed in a still at the North Jersey Refining Company?
  - A No.
  - Q No, you don't recall?
  - A No, I don't recall.
  - Q Have you ever heard of American Leather

#### Vink - By Feldman

- Q Was that account given to you for you to continue with or did you establish it?
  - A I established it.
- Q Are you familiar with Peter W. Kero, ... ... ... ...
  - A No, I'm not familiar with that name.
- Q How about Krajack Tank Lines, K-R-A-J-A-C-K, are you familiar with that company?
- A They were the company that hauled solvents. That's all I know about it.
- Q Did North Jersey Refining Company do any business with them?
  - A They hauled solvents for us.
  - Q For North Jersey Refining Company?
  - A Yes.
- Q Do you know any companies that they hauled the solvents to, the Krajack Tank Lines?
  - A I would believe Sapolin Paint.
  - Q S-A-P-L-I-N?

MR. GENTILE: S-A-P-O-L-I-N.

THE WITNESS: Right, Sapolin Paint.

MR. GENTILE: Mr. Vink, are you

saying that Krajack hauled purified material from North Jersey Refining?

## Vink - By Feldman

THE WITNESS: It was a toll job.

North Jersey didn't have permission to go into New york with a truck.

MR. GENTILE: You would haul the purified material from North Jersey Refining back to them?

THE WITNESS: What was the name of that trucking company?

MR. GENTILE: Krajack.

THE WITNESS: Krajack. They would bring in the crude materials, the dirty material, it would be processed, clean material would be trucked back by them.

- Q You just mentioned that you didn't have permission to go into New York?
  - A Right.
  - Q Why was that?
- A You have to have a special truck. You can't have any lights or anything, no horn.
- Q Was North Jersey Refining Company excluded from going into any other states?
  - A No.
  - Q No, you don't know; or no, they weren't?
  - A I don't know of any other states.

Vink - By Feldman

MR. THOMAS: Just to clarify, is that New York City or New York, the whole state?

THE WITNESS: Well, when you went into Sapolin, you had to go--evidently, where it was located, I guess they had to go through the ferry, over the ferry, you couldn't go through the tunnels or anything with that. And then it would go to Sapolin paint in Long Island, and evidently, they weren't allowed to go in there with a truck that wasn't certified.

Q Have you ever heard of a company called Inmont Brothers or Lemont Brothers?

A No.

Q How about W. R. Lynch?

A No, I don't know them.

Q How about the Mettler-Chetty Company?

A I don't know them.

Q Or the Miller-Chetty Company?

A No, I don't know them.

Q How about --

MR. GENTILE: Moscatello Salvage,

how's that.

THE WITNESS: What is it?

MR. THOMAS: Moscatello Salvage.

## Sel - by Papasavas

by DeKoven.

•

y

Q Do you know what products were processed in those stills at that time?

A As I testified at the first session, I believe they were primarily mineral-spirits.

Q And what's the basis of your believing that mineral spirits were processed in those stills?

I'm not sure what other materials may have been handled. But I know that, at the minimum, a lot of it was mineral spirits, because I was told that, and I became familiar with mineral spirits and I could see for myself, and I know where the material, most of the material came from also.

Q And who told you that the mineral spirits was one of the products that was processed back during the time period that you're referring to?

A It was probably my father and Mr. Baer both.

Q So the information--or your belief is based on information that was told to you by Mr. Baer and Mr. Sel, your father?

A Yes. But I had reason, as I grew up, to become very familiar with mineral spirits and I could

remember what I looked at.

•

\_\_ 5

Q Do you have any knowledge of approximately how much, in terms of volume, was processed in those stills, say, on a weekly basis?

Sel - by Papasavas

A No, I don't. However, a good portion--my impression is that a good portion of the material was toll work for the Sapolin Paint Company in Brooklyn, so there may be some records at Sapolin. If Sapolin is still in business, they may have some records.

MS. MASSEY: Could you spell that?

THE WITNESS: S-A-P-O-L-I-N.

Q Do you know of any other companies that provided mineral spirits, other materials?

A Not by name.

Q Do you have any information about what was done with the still bottoms which were released from the manhole valves from the No. 1 and 2 stills? I take it they weren't just left there. Eventually, they were placed someplace else.

A I can only conclude they could not have been left there or it just would have been a totally unmanageable operation. But since I was a child, I have no knowledge of where this material went from there.

## Sel - by Papasavas

but it will be an attempt only. In some cases, I'm almost sure about toll; in other cases, I cannot be sure.

Q Why don't you go through the list and identify those customers that you have a reasonable basis for believing that they were toll customers.

(The witness complies with the

request.)

3

(Off the record.)

BY MR. PAPASAVAS:

Mr. Sel, now, I would like you to tell us which customers you have a recollection of being toll customers. And you can identify those customers which may not be on the lists that I showed you, exhibits 402A and 403. If you have an independent recollection of other customers which are not on this list, then include them as those companies you're going to identify as being toll customers.

A All right. I'm going to restrict my comments to companies on the list--first of all, on the list that I have a fairly clear recollection of. It's not to say that others might not have been toll customers, but I would not want to state for certain. I note many on the list I know were customers, but I'm

## Sel - by Papasavas

not sure of the status of the customer between the two categories, so these are all toll customers, to my knowledge.

Randolph Products; Continental Can Company; Aurora Plastics; Borden Chémical Company; Chemex, Incorporated; Devoe & Reynolds; Interchemical Corporation; Pan Chemical Company; Reynolds Metals; Sun Chemical Company; Atlantic Lacquer Manufacturing Company; Beckton Dickinson, Incorporated; and I believe I have the next one down, I have Interchemical, but I believe I already mentioned them.

Q You can mention companies twice. It won't make any difference.

A Yes. I already mentioned Interchemical. Okay.

J. Landau & Company, Incorporated.

Other companies that I have a recollection of that I don't see on the list are Sapolin Paint Company, which I mentioned before; American Can Company; and Toscony Fabrics.

MR. PAPASAVAS: Off the record. (Off the record, followed by a

recess.)

BY MR. PAPASAVAS:

## Sel - by Mullen

A To my knowledge, Randolph, at least at time, had only one facility, which was within a iles of North Jersey and located in Carlstadt Route 17, near Paterson Plank Road and Route 17.

Q And I forget, sir--

A Either Carlstadt or East Rutherford, one ose two towns.

Q With respect to the entity Wallace & an, do you recall from what facility materials shipped to North Jersey?

A Yes, River Road in Belleville, New Y.

Q Sir, are you at all familiar with a ny by the name of Sapolin Paints?

A Yes.

Q Are you familiar with it in connection your father's business?

A Yes.

Q Do you know them to be a customer of your r's business?

A Yes.

Q Generally, when did they transact ess with your father's company?

A From the beginning of the solvent phase,

#### Sel - by Mullen

probably sometime in the '40s, and at some point that peration terminated.

Q Do you recall where that operation was ocated, sir?

A In Brooklyn, New York, and the operation terminated sometime in the early '50s.

Q In terms of the transactions as between that operation and your father's facility, how often or what was the frequency of transactions between the facilities?

A That was probably on a weekly basis. It was a steady stream.

Q And what types of materials did Sapolin transmit to your father's business?

A One type only that I'm aware of, mineral spirits.

Q And how were such materials transported?

A I don't remember whether it was drums or tank wagon.

Q And with respect to the materials which were transported by Sapolin Paints to your father's facility, what, if anything, did North Jersey do with those materials?

A Straight distillation.

## Sel - by Mullen

Q Were the materials then returned to apolin?

A Yes.

Q The next one pains me, but are you amiliar with a company by the name of Johnson & Johnson?

A Yes.

Q Are you familiar with that company in connection with North Jersey Refining?

A Yes.

Q Do you recall them as being a customer of North Jersey Refining?

A Yes, but under the name of one of their divisions.

Q Does the name Ethicon ring a bell to you?

A Under the division of Ethicon Industries.

Q At what point in time did the Ethicon division do business with your father's company?

A As best I remember, it was probably co-current with the previous company you asked me about.

Q Sapolin Paints?

A No.

Q Squibb?

Richmond - By Coffey

of Wilson Refining Company became customers of North Jersey Refining Company after this customer list was transferred?

- A Some of them did.
- Q Do you recall some of the entities who became customers of North Jersey Refining who were formerly customers of Wilson Refining?
  - A Chemical Service was one.
  - Q Where were they located?
- A New York. You have the address on one of those exhibits.

Singer Sewing Machine plant, I believe it was in Newark, was one. Chemsol, from some place down around Piscataway, New Jersey, was one. Strawberry Hill Press was one. They printed the--I guess they still print the wrappers for Hershey chocolate bars.

Q Were all of these entities engaged in sending solvents initially to the Wilson Refining operation and then to North Jersey Refining for reclaiming?

A That's correct, but they sent them to other places also.

Q And do you know whether the solvents that

2 4

Richmond - By Coffey

these entities sent were chlorinated solvents or thinners?

A Singer Sewing Machine was clearly trichloroethylene, because it says so in my notes. The rest I really can't remember what we did.

Q Any other customers that you can remember of Wilson Refining that became customers of North Jersey Refining?

A I think that is in one of these exhibits, and that's the sum total I can recall. If I didn't have this notebook tucked away for some reason, I wouldn't even have recalled those.

Q Can you describe the equipment that you observed when you first became employed with North Jersey Refining in 1961 at the Carlstadt site?

A It's pretty hard. There is mostly a series of tall, thin tanks that contain 2,000 gallons capacity. No agitation. They were heated externally with the jacket, and the jacket was heated with hot oil, and the oil was heated in a Weil steel boiler that would be used at home for hot water heating; that is hot water heating, not heating hot water.

Q And just as the way the Weil boiler would heat hot water in a home, would it also in the same
